FUEL SCHEDULE GENERAL INFORMATION

- 1. Make sure the proper fuel type schedule is being used.
- 2. Please print all numbers clearly. Check all mathematical computations before submitting report to the state.
- 3. After calculations have been completed, the amount due / (refund) is to be transferred to the proper fuel type line on the RT 105 IFTA cover sheet.
- 4. RT 105 IFTA cover sheet, fuel schedule(s) and the payment must be submitted together in one package to the Road Toll Bureau.
- 5. Several jurisdictions show a "surcharge" per gallon on various types of fuels consumed within their boundaries. This fee is on the taxable gallons under column "F" for that particular jurisdiction.
- 6. Gasoline purchased in jurisdictions not requiring reporting on gasoline does not generate tax paid credit. States not requiring the reporting or taxation of certain products have had a "gray bar" drawn through them You still must list the "total miles" (in column "D"), and "total tax-paid gallons" (in column "G") for mpg calculation.
